CAREER OBJECTIVE

As a full-stack developer with experience in the MERN stack and strong background in google Firebase, AWS services such as EC2, S3 and Lambda, my career objective is to use my technical skills and problem-solving abilities to build innovative and user-friendly web applications that meet the needs of clients and users. I am a passionate and proactive developer who values teamwork, continuous learning and creativity.

KEY STRENGTHS

Ability to Work in a Team

- Ability to work within a team and contribute to tasks to achieve organizational objectives. Worked within a team, led and work autonomously in the hospitality industry
- Communicate clearly between teams regarding work status and share ideas with team members during my group project at university where I was appointed as group leader

Leadership Skills

- Mentored, trained, and motivated my junior members of the team while working in the hospitality industry
- Led a team of five. Solved several disputes by facilitating team-building exercises during my group project at university

Communication Skills

- Effective communication skills developed through daily face-to-face interactions with customers and clients in the hospitality industry
- Effective written communication developed through writing weekly sales reports, event summary reports at Jamaica Blue, and meeting survey reports while studying at university
